THE labors of the farm and garden during the month of August, will be quite as urgent as at any period of the BY T. M. CALDOR.

Guite as urgent as at any period of the growing season. Let us make a memorandum of a few of those duties which are liable to be neglected, because many tillers of the soil do not perceive and appreciate the immediate damage incident to neglecting certain jobs at the proper time.

wandered from stem to stern dragging the portmanteau after him, fully surrendering himself to the magic witchery which a graceful ship, with her smooth masts, and slender spars, and endless ropes, never falls to exercise over the daring heart of boyhood. Yes, then and there John's fate was decided—he was to be a sailor.

The arrival of the owner of the port-As soon as a shower is over, instead of standing around for an hour or two with hands in the pockets, watching the clouds, put a hoc into the hands of ev-The arrival of the owner of the portmanteau aroused him from his fairy dreams. He tossed John a bright new coin and turned away, but John spoke faintly in voice by faintly in voice but with a world of earnest resolution in his shining eyes:
"Are you the captain, sir?"
"Yes, my boy, what then?"

"Do you want any more help? Is there anything I can do-and would you donot neglect to furnish a bountiful supply of pure water for every animal. Even the birds in some large cities, that are situated near the salt water, will often suffer for water if a dish containing a supply is not placed within their reach. A large cow, that yields twelve to twenty quarts of milk per day. will Captain Jarvis gave a long shrill whistle, and asked with a smile: What would you do for sea legs?" John blushed crimson, for this speech raised a laugh from a group of gentle to twenty quarts of milk per day, will need a barrel of water every day! Think of this ye who send a child with a little pail of water for the good cow; and then men near the cabin.
"I mean, my lad, you don't look like a salt water bird. A ship rolling about on the waves is quite another affair from this one moored snugly to the wharf."

wonder why she does not give any more milk? A cow cannot make milk without pure and fresh wster, any more "Yes sir, I suppose so," said John; "but I'll try to be a good sailor if you than a chemist can make soap withou will take me."
"Well, my lad, you shall have a berth. Send home for your gear, and get a permit from your father. I'll see to the

John hung his head, and for the first time felt ashamed and humiliated. Then looking up pitifully into the captain's face, while a tear slipped over his cheek,

"I have no one here to ask; and all Another shrill whistle came from the captain. He called the steward, gave him a bank note, and sent him with John back to the city to get a good sea outfit

John's glowing face expressed the thanks his trembling lips could not articulate. That night the happy boy slept on board the Falcon, and the next morning a long letter, very simple, but warm with enthusaism and love, and wet. too, with a few sorrowful parting tears, was sent on its way to cheer his mother's anxious heart, and acquaint her with the change in his fortune. Another night and the white sails of the Falcon, like the glad wings of some lib-erated bird, were unfurled to the favor-ing breeze, and the ship was dashing feet apart each way, can be grown on one acre. If a farmer three hundred long right gallantly through the foaming water.

John discovered full soon enough what the captain had meant by

legs."
Sick and dizzy he went reeling from
the deck, and hid himself in his bunk,
clinging sometimes to the sides as though expecting every moment the ship would be swallowed up by the greedy-capped waves. No one paid any attention to him. All was bustle and confusion with the usual disturbances of the first night out. The rushing to and fro, the creaking yards and flapping sails, the loud angry voices of the officers, and the sullen, drunken reply of some of the crew might well frighten the quiet country lad from all his grand ideas of saa life. His white quivering and faltering lips faltered out the little prayer for help, which his mother had taught him again and again during the long, wretched night. But the morning dawned upsoa life. His white quivering and faltering lips faltered out the little prayer for help, which his mother had taught him again and again during the long, wretched night. But the morning dawned upon him safaly, and he was subjected to a the energies of the vines to the perfection of the from off the head, again and again during the long, wretched night. But the morning dawned upon him safely, and he was subjected to a new trial. The men began to laugh and jeer at his baggard face and shaking limbs, and John, in utter misery, hid away from them as much as possible:

Presently the captain remembered the energies of the vines to the perfection of the perfection of the from off the head, in sissionary work among the poor of the city.

The Church Weekly (Protestant Episocopal) in discussing the "Wants of the copal) in discussing the the energies of the vines to the perfection of the from off the head.

mate's picture books, and yet very real and earnest to. And John was not one Those young apple trees, pear trees, peach trees and plum trees, need pruning now, more than at any other season of the year. There are a great many grafts which have been growing a race for more than a month, with several gormandizing sprouts, are now choking the grafts and robbing them of their proper nourishment. If not attended to before the end of the growing season, the grafts will be seriously injured. In most instances, except the branches are large, it will be better to pinch the robbing sprouts back, so that thay will be to neglect this golden opporunity for in-formation and improvement. Yet his heart bounded as gladly as any on board the Falcon when the good ship was once more ploughing the waves on the joyous homeward track.

They had been to sea something like three weeks, when John became aware of a change in the forecastle. new hands had been shipped in Calcut-ts, who represented themselves as be-longing to an American ship which had

longing to an American ship which had been stranded in getting up the Hooghly and condemned. They were evidently reckless, desperate fellows, but they had been careful to make no trouble with the officers of the ship. But John noticed, whichever watch they kept, they were all ways busy in low conversation with all ways busy in low conversation with one and another of the crew. Somehow their strange looks and gestures gave John an uneasy conviction that they would make trouble on board before the voyagewas ended. The explanation came to him very suddenly and alarmingly.

He had been kept awake one night by a severe headache occasioned by a fall on leader. deck, and finding the pain increasing, he rose softly, and crept noiselessly to the caboose to obtain some water to cool his throbbing temples. He went very stealthily because he did not wish to disturb the steward, who slept in a little bunk off the caboose, and was much sur-prised to hear the eager whispering from within the dimness of the little room. He knew very well it was against the rules for any of the sailors to be there, and he suspected at once that some mischief was afloat. Falling back

into the shadow of the doorway as noise-lessly as he had come, he waited a moneed in most gardens is that of water. Soil, manure, site shelter, aspect—all as course to pursue.

The first words which came to his pected to drop down from the clouds.
And if it does not, how many gardeners have to go without it, or nearly so! Go without it, what does that mean? It means hard, sticky, vegetable, stunted leathery fruits, and small withered flowers; for water is the life, the very substance of garden crops. As well try to make bricks without clay, as to grow succulent vegetables, luscions fruits, and fresh scented flowers without water andl yet water is not only exceedingly scarce strained ear sent the blood rushing through his veins, and excitement lifted off the headache from his startled brain. He stood like one chained to the spot with the cold shivers creeping down his limbs, while he listened to the villainous

AGRICULTURAL.

a satisfactory price.

Those young apple trees, pear trees,

supply of sap for the grafts may be quite too abundant. In case the graft is

weather. Young trees are like children—they require training every day or every few days. This practice is infinitely

better than to let them run riot,—grow at random,—during the most favorable period to form the tops and branches, and then at the end of the growing season, give them an unmerciful overhauling. There is science in pruning fruit trees correctly.

STORING WATER.—The most pressing

rees correctly.

RELIGIOUS NEWS. LORD Shaftesbury is so earnest in his

THE French Protestant Synod adopted are disposed to accept the application of the principle when the State judges it necessary, and finally recommend the churches to prepare for this change.

This is a good measure and will help on the reformation in France.

Hold it with a pair of pinchers or tongs; take in the other hand a stick of brimstone, and touch the piece of steel with it. Immediately after their contact, you will see the steel melt and drop like a liquid.

Onion Sauce for Ducks—Boil eight or

base to keep them erect. Ears will always grow much better when the stalks grow erect, than while resting on the ground. Then cut up or pull up every noxious weed among the growing corn.

During these sultry days and nights

This will gratify thousands outside of the Methodist denomination, who will properly regard it as a testimony of the confidence which the distinguished Bishop reposes in the best abused man in the whole church. Dr. Lanahan has done a service to the Book Concern by his exposure of wrong doing, which entitles posure of wrong doing, which entitles him to the gratitude of the Church at

INTEMPERANCE makes monsters out of parents. Recently, in England, William Green, a Coventry, workman, was tried for the murder of his daughter, four years old, by a slow process of starvation. Prisoner's eldest daughter said he had allowed the family only three shillings a week for food, and spent eighteen shillings a week in drink. The jury returned a verdict of manslaughter, and Green was sentenced to ten years' penal Green was sentenced to ten years' penal

It is not too late to plant part an acre, or more, with the seed of late turnips. If the ground is rich, plant after barley, oats or early potatoes. Dress the drills with flour of bone or superphosphate, and as soon as the young plants appear in the seed-leaf, let ashes be sifted over them to repel the insects, and you can scarcely fail to produce a fair crop. You need to eat turnips in your family every day during the winter and spring. Your horse needs a half a peck, at least daily. Your cow wants turnips, and there is nothing betfer for shear and the produce of intelligence comes by the regular mails from Japan, by which it appears that the Government of that Empire "has decided upon the promulgation of a new form of religion, upon careful consultation of the most noted exponents of each sect, and all will be compelled to conform thereto. The new religion will be enlightened, simple, and adapted to common sense, and is likely to meet the approval of all classes."

The Rev. W. Knight, of the Free Church of Scotland, has been arraigned before the Peachers are supplied to conform thereto.

day during the winter and spring. Your horse needs a half a peck, at least daily. Your cow wants turnips, and there is nothing better for sheep. Thousands of bushels can be raised just as well as not, if the ground is only prepared and the seed put in now

The Rev. W. Knight, of the Free Church of Scotland, has been arraigned before the Presbytery of Dundee for having preached in the Unitarian chapel ovies, and put them into a saucepan with one glassfuls of white wine, and two glassful of water, half a nutmeg, grated, and a little lemon peel. When it has the was invited as an orthodox minister to was invited as an orthodox minister to

chapel?

DR. GLADSTONE, an English scholar, in a recent lecture on "Points of Supposed Collision between the Scriptures and Natural Science," said that although there were some difficulties about the language of Scripture, regarded scientifically, they were not more contradictory than many of the expressions used by scientific men of the present day—such, for example, as sunset and sunrise—nor than a phrase he had met with in a scientific work—"A proper calculation of all the motions of the fixed stars."

The New York Female Bible Society

The New York Female Bible Society miles from market was to produce an acre of cabbage, the crop would certainly bring him not less than five cents per head net cash—\$544 50. Next winter when cabbage is scarce, the heads should be run to New York, when the weather is mild and they would not fail to bring

Don't neglect the grape vines at this season of the year, and let the canes and missionary work among the poor of the from off the head,

away from them as much as possible.

Frosently to for him to come to the quarter-deck, and when he sent his excuse of lines, that offer came himself to the forecastle.

"Look here, by oung landsman; this meet glp with you and let me to go the to the passed along, with heaving breast and shading kness, bolton managed to go the light system."

Clinging to railing and planking as he passed along, with heaving breast and shaking kness, bolton managed to go the light skysall, "you'll have those to furl by-and-by."

"There," said the captain, pointing to the light skysall, "you'll have those to furl by-and-by."

Sesential Quarter-deck, and when he sent himself to the forecastle.

The boy would have been greatly come to go that the bount. But the captain was inexorable.

The boy would have been greatly come the first of the bunks, strengthening and toughening the oak spanning blast, strengthening and toughening the oak spanning blast, strengthening and toughening the oak spanning entirely for his own benefit. But presently the deadly sidehness passed away, he was able to walk steadily along the report of the bunks, strengthening and toughening the oak spanning entirely for his own benefit. But presently the deadly sidehness passed away, he was able to walk steadily along the deck. Meeting the early and at length he was able to walk steadily along the deck. Meeting the captain control of the bunks, strengthening and toughening the oak spanning entirely for his own benefit. But presently the deadly sidehness passed away, he was able to walk steadily along the deck. Meeting the captain was increased by a significant that the captain point of the bunks, strengthening and toughening the oak spanning entirely for his own benefit. But presently the deadly sidehness passed away in the study is a strength of the dead of the passed away in the study is a strength of the deadly sidehness passed away in the study is a strength of the deadly sidehness passed away in the study is a strength of the deadly sidehness passed away in th

States, of all kinds, was 141,629; the number of teachers, 221,042; of whom 93,329 were male, and 127,713 female. The total number of pupils was 7,209,938; 3,621,996 being male, and 3,587,942 fe-male. The total income from all sources of all the schools was \$96,402,726; of this \$3,663,785 came from endowments, \$61,-746,039 from taxation, and \$29,992,902 from all other sources, including tuition. The total income reported is nearly three times that for 1860, and nearly six times that for 1850. It is considered quite impossible that there should have been any bing sprouts back, so that thay will be shorter than the grafts. Then the grafts will take the lead. If the sprouts are cut entirely off close to the stock, the such increase, and the apparent increase is, without doubt, referable to a failure in former censuses to secure complete returns. Of the total number of schools quite too abundant. In case the graft is making a feeble growth, let all the sprouts be cut off smoothly, close to the stock. If young trees of any sort are throwing out long and slender pranches let all the terminal buds,—about half an inch of the end,—be pinched off. This will check the flow of sap, or the determination of it, to the extremities of the branches, and cause them to become more stocky, cause the buds to develop, and make the wood mature before cold weather. Young trees are like children returns. Of the total number of schools returned, the public are 125,059; classical, professional and technical, 2,545; and others, 14,025. The total number of teachers in public schools is 183,198; and in the classical, professional and technical, 12,767. The number of pupils in this latter class is 245,190; and in the public schools 6, 298,060. public schools, 6,228,060. KNOX COLLEGE EMBARRASSED,-Presi-

dent Gulliver, of Knox College, Ohio, has resigned his office on account of the failure of the Trustees to increase the endowment, as was promised. A writer in the Interior says: "We are glad to learn that all parties are now satisfied that the College should be put into the hands of either the Congregationalists or Presbyterians. An endowment of \$200,000 would make it the foremost college in the West. If the Presbyterians would at once propose to restore the plan of instruction as it was, and if individuals could be found to pledge themselves temporarily to supply the means to cover the annual deficit of ten or twelve thousand dollars till a permanent endowment could be raised, we understand that and the read that any properties and based on the plan of instruction as it was, and if individuals could be found to pledge themselves temporarily to supply the means to cover the annual deficit of ten or twelve thousand dollars till a permanent endowment could be raised, we understand that any properties and boil them until you can skin them; then throw them into the other pot with salt to your liking, and boil them until you can skin them; then throw them into the other pot with salt to your liking, and boil them until you can skin them; then throw them into the other pot with salt to your liking, and boil them until you can skin them; then throw them into the other pot with salt to your liking, and boil them until you can skin them; then throw them into the other pot with salt to your liking, and boil them until you can skin them; then throw them into the other pot with salt to your liking, and boil them until you can skin them; then throw them into the other pot with salt to your liking, and boil them until you can skin them; then throw them into the other pot with salt to your liking, and boil them until you can skin them; then throw them into the other pot with salt to your liking, and boil them until you can skin them; then throw them into the other pot with salt to your liking, and boil them until you can skin them:

I hav also on hand and for Sale the following Books and numbers of Magazines: Furniture for the Million. Operative and Mechanical SUCH AS THE ALDINE, while issued with all the regularity, has none of the temporary or timely interest characteristic of ordinary periodicals. It is an elegant miscellany of pure, light, and graceful literature, and a collection of pictures, the rarest specimens of artistic skill, in black and white. While other publications may claim superior cheapness as compared with rivals of a similar class, THE ALDINE is a unique and original conception—alone and unapproached—absolutely without competition in price or character. I am permitted to use the names of the following gentlemen for DENTIST. BILL HEADS, BILLS OF LADING, CHECKS, CARDS, CIRCULARS, THE UNDERSIGNED WISHES TO CALL special attention to his assortment of LETTER & NOTE HEADINGS, J. H. Merrill, W. L. Perkins, S. Marshall, P. PROGRAMMES, STORE BILLS, FURNITURE AUCTION BILLS, LABELS, New Features for 1872. ENVELOPES, BALL TICK-Art Department. 4ar5 ETS, INVITATIONS, &c. The enthusiastic support so readily accorded to their enterprise, wherever it has been introduced, has convinced the publishers of THE ALDINE of the soundness of their theory that the American public would recognize and heartily support any sincere effort to elevate the tone and standard of illustrated publications. As a guarantee of the excellence of this dopartment, the publishers would beg to amounce during the coming year, specimens from the following eminent American artists: A LL operations performed in the most skil-ful manner, and in accordance with the latest scientific principles of the art. Artificial teeth inserted on the Rubber Base. Children's Teeth extracted without charge. Using nothing but the very best quality of material in the man-ufacture of Plates and Teeth, and having but one price, I feel confident in giving satisfaction to my patrons in every particular. of all kinds, consisting of A song for the sons who honor deserve, A song for the sons of the Western Reserve. The Volume for 1872 as a frontispiece.

The Christmas number for 1872, will be a splendid volume in itself, containing fifty engravings, (four in tint) and, although retailed at one dollar, will be sent without extra charge to was a very popular feature last year, and will be repeated with the present volume. The publishers have purchased and reproduced, at great expense, the beautiful oil painting by Seis, entitled "Dame Nature's School." The chromo is IIxl3 inches, and is an exact fac-simile, in size and appearance, of the original pic ture. No American chromo, which will at all compare with it, has yet been offered at retail for less than the price asked for THE ALDINE and it together. It will be delivered free, with the January number, to every subscriber who pays for one year ih advance. Terms for 1872. One Copy, one year, with Oil Chromo, Five
